Announcement of the Democratic city primary ticket was made at Col. James Lang's drug store last night. The entries were quietly made, and no cards were published calling on people to become candidates for any of the offices. Yesterday it was impossible to secure any information about the entries, though it was stated by those in authority that Councilman J. P. McCarthy would not be put on the ticket, and that former Alderman Lucian Durrett could not be persuaded to make the race again. However, at the eleventh hour he was coaxed into it, and by midnight Colonel Lang was able to announce eight candidates for the four places on the board of aldermen, and it is no secret that those responsible for the ticket hope to see three new names on the Democratic aldermanic ticket this fall.

The line-up for aldermen in the primary will show four possible candidates for the nomination for mayor next year. Aldermen Ernest Lackey and Joe Potter are frequently spoken of in the race and Lucian Durrett and G. R. Davis have aspired before. Success at the November election might be expected to awaken dormant ambitions and others might be affected in the same way.

Discussion of mayoralty candidates is heard in political circles frequently now, and some of the candidates are beginning to throw feelers toward public sentiment. Though not an avowed candidate, nor even admitted a receptive one, W. F. Bradshaw, Jr., chairman of the Democratic city and county committee, is frequently mentioned as a live possibility and a number of influential citizens are openly advocating his nomination.

DUTY BY PRESIDENT THEO-
DORE ROOSEVELT.**

Buffalo, Aug. 25.—Colonel Roosevelt, here today, hurled a parting shot at his political opponents and started on the long leg of his western trip. Would Reconsider.
New York, Aug. 25.—A special meeting of the Republican state committee to solve the question of who shall be temporary chairman, and thereby prevent a fight on the floor of the state convention, was a report which Lloyd C. Griscom, New York county chairman, would not discuss. Mr. Griscom did not deny that he had received word from several state committeemen who had voted in committee for Mr. Sherman for temporary chairman that they were ready to join the so-called "progressives."

State Chairman Woodruff will be in town to plan the fight in the coming September primaries, where the next test will be had of the forces that are now struggling for the control of the state.

notified to look out for him. Patrolman Mitchell set his plans, being somewhat familiar with Coffee's movements. County School Superintendent W. L. Feezor will call a meeting of the new board about September 15, when it will begin its work. Mr. Feezor is a member of the board, comprising six trustees and himself.

County Examinations.
Superintendent Feezor today received a letter from State School Superintendent Ellsworth Regenstein, telling him to inform the county school teachers that the questions for the examinations in 1911 will be based largely upon material in three text books which he recommends for circle study work. They are: "Dinmore's Teaching in District Schools," "Allen's Civics and Health," and "Hamilton's Recitations." It is important that the teachers study these books and Superintendent Feezor will organize a reading circle early in September.

The county high school will open about the first Monday in October. Professor Feezor today placed an order for 75 single desks for the study hall and also an order for 150 double seat desks for use in the graded schools over the county.

The jewels were stolen from the dresser drawers in her room and no clue has been found that will lead to the identity of the thief. He stole into the house quietly, although unseen by neighbors. The jewels consisted of one ladies' gold watch, one diamond ring, one opal ring set with pearls, one ruby ring set with pearls and one gold bracelet. The police were notified and patrolmen are working on the case.

Betrayed Girls of New Orleans Take Law Into Their Own Hands To Avenge Themselves on Betrayers

**Mamie McLaughlin Acquit on
Plea of Unwritten Law and
Another Follows Her Ex-
ample.**

New Orleans, Aug. 25.—Police here today are convinced they have encountered a man killing epidemic among disappointed girls. Following closely upon the trial of Mamie McLaughlin, accused of killing Hugh Smith, pleading the unwritten law, Katherine Fretsch shot and killed Frank Mitchler, her alleged betrayer. The girl is in a critical condition in jail, but confident of acquittal for justifiable homicide.

Anonymous information today reached the police that a number of men have received letters from young girls, who allege they have been wronged, threatening their betrayers with death. The Fretsch girl is held for murder. She is a member of an old family. She will be tried at once.

Mamie McLaughlin, charged with the murder of Hugh Smith, was declared not guilty by a jury which returned a verdict a few minutes after it had retired.

According to the story of the girl, who is only 18 years old, she killed Smith because he had betrayed her. Smith, 12 years or more her senior, was a politician and saloon keeper. The girl is an orphan, but she was supported in her trial by the Era club, an organization made up of several hundred representative women of New Orleans.

MORE EVIDENCE IN BROWNE TRIAL

**TESTIMONY OF ANOTHER CON-
FESSED BRIBE TAKER AD-
MITTED BY JUDGE.**

Chicago, Ill., Aug. 25.—Presiding Judge Kerston, in the criminal court, lifted more bars in the second trial of Lee O'Neil Browne here when he ruled that Representative H. J. C. Beckemeyer, of Carlyle, might answer questions about the legislative "jack pot" in 1909.

Beckemeyer declared Browne had paid him \$1,000 in the Southern hotel in St. Louis in June, 1909, saying "there will be more in a few weeks." Subsequently Beckemeyer says he was told to visit St. Louis and there he met Representative Robert E. Wilson and received \$900 "jackpot" money from him. Wilson is now under indictment for perjury.

Through Beckemeyer, the prosecution was able to introduce a register of the Southern hotel, bearing the signature of L. O. Browne, June 21, 1909, when Beckemeyer says he got the \$1,000 Lorimer money and the signature of Robert E. Wilson. July 15, 1909, when the "jackpot" was alleged to have been divided.

C., representing Kentucky to the annual meeting of the American prison congress September 28 to October 8. Bottom of River at Suck Island.

Columbia, Tenn., Aug. 25.—Col. J. H. Acklen, state game warden, has authorized Mathers Gordon, deputy game warden of Maury county, to visit and blow out the bottom of the river at Suck Island, the place where so many people have been drowned and the recent drownings place of Mrs. Virge Patton and Miss Christine Patton. Mr. Gordon will put in about six charges of twenty pounds each of dynamite in the river. This was brought about by requests from Sawdust by the leading citizens to Mr. Gordon to have it done. Colonel Acklen stated in his letter that the dynamite was to be used for this purpose only, and not for the purpose of killing fish. The dynamite will be placed in the crevices by a diver and all will be shot at once by the means of an electric battery.

ACCIDENTS MUST ALL BE REPORTED

**POLICE TOLD TO GET IMME-
DIATE INFORMATION FOR
THE CITY.**

That Paducah patrolmen have not been conforming strictly to the rules of the city is the opinion of City Solicitor James Campbell, Jr., who today asked Chief of Police Henry Singery to have men make reports of accidents within their territory. Oftentimes the city is held liable for accidents and heretofore no reports have been turned into the headquarters by patrolmen. Mayor Smith requested that this rule be followed strictly some time ago and all patrolmen will be required to be more prompt hereafter.

**COAL STRIKE GOES
ON IN ILLINOIS.**

Chicago, Aug. 25.—Hope of ending the strike of coal miners in Illinois ended today, when the Illinois Coal Operators' association, in session here, voted unanimously not to accept the miners' Peoria scale. One hundred and thirty mining companies controlling 350 miles, were represented at the conference, and each company gave a bond to uphold the resolution and stand out against the miners.

The resolution affects 50,000 of the 75,000 coal miners in Illinois now on strike, the companies in the First and Ninth districts previously having adopted the scale and ended their labor troubles.

A committee of nine men was appointed to review the situation and to take steps looking toward arranging a new scale. The association adjourned following the appointment of the committee which will hold its first meeting tomorrow.

No More Free Milk.

New York, Aug. 25.—A cable message from Nathan Strauss, the millionaire philanthropist, announces that next year he will abandon the distribution of pasteurized milk in this city. He is now in Berlin, where recently he opened a milk depot similar to those here. Strauss has met such opposition from radical scientists, who do not share his views, that he has decided to discontinue his charity.

GROVER LAND IS WITH NAPS AGAIN

**CLEVELAND PLAIN DEALER
PRAISES FORMER PADU-
CAHAN HIGHLY.**

After having been farmed out to Toledo in the American association Grover Land, a former star catcher in the old Kitty league has "come back" to Cleveland in the American league. According to the Cleveland Plain Dealer it is a welcome "come back" and has the following to say under an enlarged photo of "Our Grover": "Grover Land made his re-appearance in a Nap uniform Monday after a course of training with the Toledo club. Land made himself solid by cracking out four hits, sacrificing once, stealing a base and preventing the Athletics from stealing on him."

In another column under the head of "Notes of the Game" the Plain Dealer says: "Land was very much in evidence in the batting line. He was up six times and got on five times. The other occasion he sacrificed. He made four hits and reached first twice again on an error and base on balls." It was in the game between Philadelphia and Cleveland when the Athletics won in 12 innings. The Plain Dealer highly praises the work of Land, who has risen rapidly since leaving Paducah. The news of his return to Cleveland will interest local followers of the national game and he will be watched daily with the Cleveland club. Land has many personal friends in Paducah and is a good boy.

BALLINGER SIGNS HIS OWN DEATH WARRANT

San Francisco, Aug. 25.—In a long statement made public today Secretary Ballinger practically advocates the transfer of control of waterpower sites to the various states. He attacks the policy of the Roosevelt administration as "too absurd to be considered seriously."

Miners Protest.

Pittsburgh, Pa., Aug. 25.—The action of the Indianapolis special convention, increasing the weekly assessment against members of the United Mine Workers to one dollar, today developed a storm of protest. It is said that Pittsburgh district operators have agreed to check off only 50 cents weekly, and to cut the wages a dollar.

BEATS OLIVE OIL.

Cotton and Oil Making Steady Headway.

Washington, Aug. 25.—American cotton seed oil, despite the high duties against it, is steadily making headway in the markets of the world. Through the efforts of the bureau of manufacturers of the department of commerce and labor some packers of sardines in France and Norway have promised to begin experiments in packing fish in the American products instead of olive oil.

Italy is unable to undersell Spain in the olive oil market a report to the department says, but Spain prohibits the importation of cotton seed oil as an edible, while Italy permits it. The Spanish dealers send their olive oil to Italy, where it is mixed with the cotton oil. The domestic use of cotton seed oil in Italy, as well as in Turkey, allows nearly all the native oil (olive) to be exported.

Special agents of the department, who have been investigating the foreign market report that the prejudices against the American product are being steadily broken down, and an immense sale of cotton seed abroad in the next few years is expected.

I will begin my assessment September 1 and every taxpayer in the city should not fail to call at my office and give in their property, which enables the assessor to get a true and correct list. The law provides that on failure to do so that a penalty shall be added to the assessed value of said property and the assessment as made this year on all real estate will stand without change for the next four years. Therefore it behooves all taxpayers to be on time in coming to my office and get a correct assessment of his or her property.

Wires were being transferred to a new pole by Trotter and two other men, Horace and Bera Murphy. Trotter was on the old pole alone, while one man was on the new pole, and in some way unknown he was touched by the wire and fell over, but was prevented from falling by his belt. Hopkinsville at McLeansboro.

Clarksville, Tenn., Aug. 25.—In a pitchers' battle here yesterday afternoon Paducah played rings around the locals and won 3 to 0. Woodring for the Indians, was in his best form and only three hits were gotten off him by Clarksville. Priest's curves worked nicely also, and the Indians got only five hits. They were well bunched and two errors for the locals lost the game. The Indians worked in perfect harmony with no errors.

Hooks Go to Dawson.

The B. B. Hooks team will go to Dawson Springs Sunday where they have booked a game with the fast team of the summer resort. They will leave in the morning, returning at night and intend to score another victory to their good record of this season.

Food for the Fans.

Dunbar is the name of a new umpire who will be tried by President Gossall of the Kitty. The new "ump" hails from Indianapolis and is said to be first class. Paducah fans only hope he will turn the mill better than Rieser did and prevent any more sparring exhibitions.

In regard to McLeansboro's fast ball playing the Vincennes captain of yesterday says:

Unless the very unexpected happens McLeansboro will not be headed but instead will have almost as much of a runaway as the Southern Illinois league. The team seems to be improving all the time and the charge that it wins at home because of umpire biasing doesn't sound reasonable. Here it has never shown great form and in none of the games played has it appeared to be in the same class as either Vincennes or Clarksville. However, it wins at home and elsewhere and has probably been out of form when here.

HOKE SMITH IS GEORGIA'S CHOICE

DEFEATS BROWN, WHO BEAT
HIM TWO YEARS AGO.

Two Congressmen Who Supported
Cannon Rules Sent to the Rear
by Angry Democrats.

"DRY LAW" IS NOT ENFORCED.

Atlanta, Ga., Aug. 23.—Hoke Smith, of Atlanta, will be the next governor of Georgia. Two of Georgia's oldest congressmen in point of service, Leonidas F. Livingston and William M. Howard, were defeated for renomination in campaigns in which their alleged support of the so-called Cannon rules at the organization of the house last winter was made a principal issue.

It was a long swing of the political pendulum which gave Hoke Smith the nomination yesterday. Four years ago he was elected governor of Georgia by an overwhelming majority. Two years ago he was defeated for renomination by Gov. Joseph M. Brown, whom he had deposed as chairman of the state railroad commission. This year Brown and Smith were against opponents for the renomination, and, according to unofficial figures, Smith carried 81 counties to 61 for Brown, with four counties yet to hear from. Brown gained the nomination two years ago largely on the issue that Georgia needed what his supporters called a business administration for the sake of the state's prosperity. In his former campaign Governor Brown made it plain that he did not intend to enforce the state-wide prohibition laws of Georgia, and after four years of this policy the people of the state have decided to go back to the policies which resulted in the state going dry.

While there were other issues in yesterday's voting, yet the "business administration" question retained its prominence. The vote was heavy, incomplete returns placing it at about 200,000. Candidates for other state offices were chosen, but a further count will be necessary to determine the candidate for attorney general, Thomas S. Felder being in the lead for this office early today over Hewlett A. Hall. For the remaining vacancies on the railroad commission O. B. Stevens and Joseph F. Gray are leading.

Congressman Livingston has served 20 years continuously from the Fifth district, and Congressman William M. Howard 12 years from the Eighth. Except for these two, Georgia's congressional delegation probably will remain unchanged.

Hardwick's Close Shave.

Thomas W. Hardwick, of the Tenth district was closely pressed by Oswald R. Ewe and A. W. Evans, but won Hardwick's fiercest opposition came from Thomas E. Watson, former Populist candidate for the presidency, but now again a professed Democrat. Watson was not a candidate, but his opposition resulted in a fight, which set a few new records in personal invectives in this state. Although returns are not complete from the Sixth district, Charles L. Bartlett, incumbent, apparently has a safe lead there.

THE "LAKE OF BAYS" COUNTRY.

A handsome brochure, artistically illustrated, issued by the Grand Trunk Railway system, telling of the beauties of the Lake of Bays district, in the "Highlands of Ontario." The concise description embodies the story of a charming resort. A new feature of this district is the new hotel—"the Wawa"—at Norway Point.

ASK TO BE ANNEXED.

Secretary Dickinson Tendered Allegiance of Mindanaos.

Zamboanga, Mindanao, P. I., Aug. 25.—A demonstration in favor of the annexation of Mindanao to the United States occurred here today. Two hundred Filipinos had presented to Secretary of War Dickinson, who is now visiting the Philippine Islands, a petition asking that the Moro Islands be placed under Filipino control and the entire archipelago granted independence. Secretary Dickinson in reply stated that the American government was not willing to entrust the government of 325,000 Moros to 66,000 Filipinos, living in widely scattered regions. He feared that such a solution of the Philippine question would lead to a rupture of peaceful conditions, when to the Americans would be left the task of restoring order.

Four dattos, of Moro chiefs, representing 40,000 Moros, at this point dramatically tendered their allegiance to the United States and announced that they would fight if the Americans withdrew. A wild demonstration followed and the cry that the province must become America territory ran through the crowd which had gathered to hear the American secretary of war.

SIBLEY DEMANDS AUDIT.

Declares Presentation of His Side Will Clear Matters.

Franklin, Pa., Aug. 25.—Joseph C. Sibley of this city, whose arrest on a "charge of conspiracy to bribe and defraud voters of Warren county," followed his resignation as Republican nominee for congress in the Twenty-eighth Pennsylvania district yesterday, has issued a statement in which he expresses the hope that a full and exhaustive audit of his campaign expense account will go on as planned.

"The audit," says Mr. Sibley's statement, "will give me opportunity to present my side of the case and emphatically deny the rumors that have been circulated and inspired by my political enemies."

Mr. Sibley also says he will attend the audit in Warren on next Monday, "if they have to carry me there on a stretcher."

Lawyers both here and in Warren are divided in opinion concerning the validity of the warrants of arrest served on Mr. Sibley and four other defendants yesterday. The primaries, as stated in the information, were given as June 11, 1916, whereas the primaries nominating Mr. Sibley were held on June 4. Mr. Sibley's attorneys assert this discrepancy will necessitate the rescinding of the warrants while attorneys for the Warren County Civic League, instigators of the prosecution, assert the differences in dates will cause no delay in the proceedings of the case.

Home Treatment for Tuberculosis

Less Expense Involved Than by Other and Less Effective Methods.

Hundreds of people have cured themselves of Tuberculosis by a very simple, inexpensive home method—fresh air, careful diet and Eckman's Alternative. This Alternative is not a new medicine. It has been conquering tuberculosis for nearly 15 years, many cures resulting after sanatoria had failed and pronounced the cases incurable.

Think what this means. No specialist's fees; no sanatorium charges; no travelling expenses; no expensive egg-and-milk gorge. Eckman's Alternative has cured many people right in their own home, where their dear ones encourage them and give them that tender home care which money cannot buy.

Sanatorium treatments build up the body, but do not destroy the disease germs, so that after the sanatorium treatment is discontinued (you falsely believing that you are cured) galloping consumption oftentimes develops.

Be honest with yourself. Have your physician examine you NOW. He'll probably recommend the usual fresh-air, egg-and-milk or sanatorium treatments. Perhaps he'll tell you your case is incurable. Then, after you have thoroughly investigated our affidavits and testimonials—feeling sure in your own mind that if Eckman's Alternative has cured so many others it surely must help you—start taking the Alternative. Your improvement should be gradual, but certain. But don't think your cure is complete—KNOW IT! Have the same physician examine you again. If you have been faithful to Eckman's Alternative he will be amazed at your improvement, if not reporting an absolute cure.

Eckman's Alternative is good for all throat and lung troubles, and is on sale in Paducah by List Drug Co. and other druggists. It can also be obtained at, or procured by, your local Druggists. Ask for Booklet of Cured Cases or write for Evidence to the Eckman Laboratory, Philadelphia, Pa.

DROPPED MATCH

TUGBOAT MAYE BLEW UP, KILLING CARELESS STEWARD.

Capt. McClain Seriously Hurt, But Will Recover—Boat Valued at \$5,000.

Mobile, Ala., Aug. 25.—Carelessness in starting a fire in the gallery of the tugboat Maye, lying at the docks of the Blacksher Lumber company on the Mobile river, north of the city, shortly before 9 o'clock this morning, caused an explosion of the gasoline supply tank, resulting in one death, injuries to several and the wreck of the boat.

UNKNOWN NEGRO, steward, blown into the river and lost. The injured:

Capt. G. W. McClain, master and owner of boat, throat cut, jaw and ankle broken and seriously burned. John R. Bishop, engineer, burned about the face, arms and legs and flesh torn.

Cally Hazzard, negro deck hand, slightly injured. C. E. Lankford, superintendent of Gulf Refining company's supply tank, leg badly wrenched.

All of the injured were brought to this city, where medical attention was administered. Captain McClain, although seriously hurt, will recover.

The Maye was about to pull away from the dock when the explosion occurred. The negro steward was preparing breakfast. It is thought that he dropped a lighted match into a pool of gasoline that had dripped to the floor of the gallery from a drain pipe. The supply tank had just been filled a few moments before. There was a deafening roar, the boat parted and members of the crew were hurled in all directions.

Capt. McClain was hurled into the air and fell into the water. A party of rescuers soon reached his side and carried him safely to shore. C. E. Lankford was in the act of jettisoning the stern line of the Maye. The force of the explosion threw him backward, causing a severe sprain to his left leg. The missing steward was hired yesterday. His body has not been recovered.

The force of the explosion tore out the bow of the Maye and otherwise damaged the craft. The Maye was a vessel of a little more than four tons, unregistered, and valued at \$5,000. It is doubtful that she can be repaired.

A Large Order.

A Frenchman was teaching in a large school where he had a reputation among the pupils for making some queer mistakes.

One hot day he was taking a class which was rather disorderly. What with the heat and the troublesome boys he was very snappish.

Having punished several boys and sent one to the bottom of the form, he at last shouted out in a passion: "Ze whole class go to ze bottom!" —Til-Bits.

Daily Thought.

There is always home in a man that actually and earnestly works. In idleness alone there is perpetual despair.—Carlyle.

For He! Fickle Georgia!

It appears from reports of the grand lodge meeting that some Eagle has been feathering his own series.

Maybe the cold wave was heated by the forest fires in the northwest before it got started this way.

It seems a shame to separate a couple like the Cudahys.

Dahlman's victory over Bryan's man in Nebraska was a bare 200; with a contest for fraud in prospect. Mr. Bryan isn't quite dead yet.

PROPRIETARY REMEDY FOR CIVIC CONDITIONS.

The Democratic city primary ticket, as compounded behind the prescription counter of Col. James Lang's drug store, is offered to the public, though the formula is not plainly printed on the bottle. Testimonials, accompanying the announcement, refer to it as "Lang's Specific for Political Purity"; but if, as claimed this morning, it was prepared according to the directions of the Democratic Lucretia Borgia on Fourth street, which has been trying to poison Ed Hannan and Col. Joe Potter for several weeks, some people should be careful about the dose.

WASH DAY.

A great deal of dirty linen, political and industrial, is being washed in public, and washday is always disagreeable. Too many of our citizens, we fear, possess the childish spirit of enjoying the mud and playing in the dirty water; when the attention of all should be concentrated on getting the linen clean. White clothes hanging on the line Tuesday is the justification of every Monday's turmoil. If we tire of the mess with the linen as dirty as ever and ourselves bemattered, we shall quit work off than when we started. Let us clean things up, and not cease until we have improved conditions so that they are less likely to get dirty again.

We have in National life several great reform leaders and while they are in the ascendancy conditions seem to improve, public service is more responsive to the demands for betterment and official life takes on higher character. But these men cannot live forever. Conditions, which attach to their personalities and individual efforts will pass away with them, and future conditions will depend upon the kind of men, who are in control then. We know that selfish influences are persistently at work, while altruism and patriotism some times grow weary. Experience teaches us that in the past reforms have followed prolonged periods of political debauchery, and always at the expense of much bitterness and waste.

If we are satisfied with the improved conditions these men bring, and do not sustain the effort long enough to permanently secure these conditions against influences that will endeavor to succeed them with lesser men, we are not deserving of the heritage won for us at the blood of the revolution. The short

ballot for the state, the commission government for the municipality, with the initiative and referendum and recall for both state and city, and the popular primary under the state board of elections for both parties, are among the measures that would go far toward returning to the people their voice in the selection of men to fill public positions and the right to dictate the course of public policy.

Flint, Michigan, has a hard name—yes—but that does not keep people away.

STATE PRESS.

A Sound Beginning.
Speaking at Georgetown, O., Senator Dolliver, of Ohio, laid down some sound principles.—Owensboro Messenger.

The Ten Days' Rule.
Governor Beckham in the Kentucky State Journal says: "The curse of Kentucky legislation is the paid lobbyist. Through the efforts of the unconscionable pests measures are defeated which should be passed, and others are enacted into laws which should be defeated. Corrupt bargains and combinations are made, and the will of the people defied. Let those who become candidates for the legislature in the future be required to pledge themselves to vote for a law abolishing the paid lobbyist."

This is all very true, but there is another thing that our law makers should do, and that is to abolish the rule in both the senate and the house delegating to the committee on rules what legislation should be enacted during the last ten days of each session of the legislature. Under the provisions of our constitution a bill when offered must go through a long course before it becomes a law and in a sixty day session of the legislature a good parliamentary can ward off indefinitely good and wholesome legislation.

When the session is drawing to a close and the committee on rules in each house has charge of all legislation to be enacted it is then that the lobbyist gets in his work through corrupt bargains and combinations.—Lebanon Enterprise.

As It Looks to Lexington.

The entrance of Hon. John K. Hendrick, of Paducah, into the gubernatorial race, making five candidates for the office, will somewhat complicate matters, but it will hardly prevent the nomination of Senator McCreary. That part of the state in which Colonel Hendrick lives was said to be almost solid for the senator. It will remain to be seen whether the favorite son racket will take it from him. Colonel Hendrick is of fine gubernatorial timber and a good Democrat, but it looks like this is not his time.—Lexington Herald.

TENNESSEE COMMENTS

Ten More Pardons.

Ten pardons were granted by Governor Patterson last week. He evidently fails to understand the handwriting on the wall, or wants to pardon enough men to insure his re-election despite his unpopularity. Fort Worth (Tex.) Record.

Beat Patterson.

There is still some reason to believe that Tennessee is due a place with the 47 other commonwealths of this land Governor Patterson has been given a deserved rebuke. The candidates put up by him for places on the supreme court bench have been soundly beaten. The people of Tennessee very evidently have no wish to aid and abet Governor Patterson in his attempt to punish the court which did not degrade itself by deciding in favor of the men who murdered Senator Carmack. Judging by the treatment of his candidates, it is evident that the people do not endorse Patterson for his pardoning of the Coopers. Patterson soon comes up for re-election. A fusion candidate opposes him.

Patterson had not the worst record in all the world as an executive for pardoning murderers ought not to get a vote in all Tennessee for his crime against human society in pardoning the men who killed Carmack. Here is a case which demands that party ties should be ignored.—Worcester (Mass.) Gazette.

Patterson "Indignant."

Governor Patterson, of Tennessee, who attempted to influence the decisions of the courts, is viciously intermeddling in Tennessee politics.—New York World.

Rebuking a Boss.

No political boss, Democrat or Republican, ever received a more stinging or a more deserved rebuke than has Governor Patterson, of Tennessee. Patterson is the man who first tried to have the supreme court of his state send back for a new trial the case of Duncan Cooper, who was convicted of killing former Senator Carmack. A majority of the court sustained the verdict, and within a few hours Patterson issued a pardon to Cooper.

Then the Democratic boss started to eliminate the judges who had refused to do his bidding. Controlling the Democratic party, he abolished the special state convention at which candidates were to be nominated. The judges who had upheld the conviction were candidates for renomination, and they ran on an independent judicial ticket in the election, and they won out.

Patterson is the Democratic nominee for governor. Tennessee is a Democratic state, and it has always been "regular." The election showed there are enough independents to rebuke in an unmistakable way a boss who as governor would coerce and overturn the highest judicial tribunal in the state. It remains to be seen whether these independent Democrats will do their duty as citizens at the polls by retiring forever the man who has shown he should not be trusted with the power he wields as chief executive.—Helena (Mont.) Record.

Independent Democrats Stand Steadfast.

The state committee of the Independent Democrats, in calling a convention to meet in Nashville on September 14, and in deferring all matters relating to the policies of the Democrats to that convention, acted with discretion and wisdom.

While the individual members of the committee are in sympathy with, and endorse, the fusion with the Republicans, they deemed it expedient for the people to speak for themselves in the good old Democratic way to the end that the charge of bossism and machine control could not be lodged against them.

When they, in the regular Democratic way, called an old-time Democratic convention by the people, they did right, for now those Democrats who are for law and order and against Patterson, have an opportunity to aid in forming a permanent Democratic organization from its prostrate and degraded depths into which it has been plunged, and, after the cleansing and regenerating process is complete, go on as of yore in its conduct of the public affairs.

At that convention the people, through the agency of their regularly appointed delegates, will do as they please, without the dictation of a boss, in the matter of endorsing or renominating Ben Hooper for governor and Gus Enloe for railroad commissioner, for it is assumed that the convention will be practically unanimous on that point, for the one hundred and forty thousand persons who voted for the free judiciary and against insolent machine domination will also be for the fusion nominees for governor and railroad commissioner.

They were right in August, and they will be right in November. The Republicans aided the Democrats in August, and the Democrats will aid the Republicans in November. Nothing can stay the onward march. A patriotic spirit is in command, and a determined purpose makes victory assured.—Nashville Tennessean.

Patterson's Odious Record.

The state of Tennessee is well worth consideration by Republican leaders. Governor Patterson's pardon record and his raid of the state judiciary has split it as wide open as with an axe. With 40,000 majority against Patterson's program in the

recent state election, there is good ground for a new campaign to gain several congressmen.

The Right Kind of a Man.

Do you ask who is Ben Hooper? He is the man who, when solicited to give aid to the Baptist orphanage at Knoxville, sent his personal check for \$10,000 with a very brief letter directing that it be used to the best advantage. That "is the kind of a man the people love to vote for."—Bristol Evening News.

Tennessee Redeemed.

Tennessee was redeemed the other day when a judiciary was elected which Governor Patterson cannot sway. It will be completely redeemed on November 8, when Patterson is cast out for good and all, and a man of the modern, law-abiding type is put in his place.—St. Louis Globe-Democrat.

No Use for Jails.

Gov. Malcolm R. Patterson, of Tennessee, paraded seven more criminals last week, and then announced that he was willing to waive his latest renomination and run again in a Democratic primary. If another primary is ordered there will be no more use for jails in Tennessee by the time the polls open.—New York Tribune.

Agree With Patterson.

Some time back Gov. Patterson, of Tennessee, made the following statement: "I would rather vote for a straight Republican than a crooked Democrat." The voters of Tennessee, it seems, agree with him and are going to vote for Capt. B. W. Hooper, the Republican nominee, as against Patterson, the so-called Democratic nominee.—Greenville (S. C.) Piedmont.

Won't Last Much Longer.

Governor Patterson, of Tennessee, issued seven pardons last Monday. If the courts of Tennessee would try their whole duty, and Patterson could hold on long enough, he would have a clear majority on his side, it being assumed that all the beneficiaries of his clemency would vote for him to a man.—Richmond (Va.) Times-Dispatch.

Handed His Walking Papers.

Governor Patterson is pretty generally advised to retire. If he does not care to take the advice right now, however, it seems probable that the people of Tennessee will hand it to him in another form next November.—Washington Herald.

What One Pardon Did.

A promised pardon got Patterson's judicial ticket at least fourteen votes in Cooke county. This would indicate that Patterson's pardon record has made him something like 13,000 votes at that average.—Newport Plain Talk.

Why Certainly.

Two years ago DeKalb was counted a Patterson stronghold. The official returns show the majority against the governor's judges to be nearly 1,000. And we will do it again in November.—Alexandria Times.

No, No, Ham.

Governor Patterson, seeing positive defeat staring him in the face, offers to throw away his nomination, proposes that another primary be held to see whether or not he is acceptable to Democracy. The invitation will not be accepted. His methods are too well known. The trap looks plausible, but nothing will satisfy the people of Tennessee save the elimination of Patterson and his policies and principles.—Murfreesboro Home Journal.

Where the Tennessean Stands.

The Memphis Commercial Appeal wants to know what the Tennessean would do if Patterson should withdraw and another Democrat should be nominated.

The Tennessean would do in that event what it is now doing—it would urge the election of Ben Hooper as governor and Gus Enloe as railroad commissioner, and continue to warn the people of Tennessee against the schemes of the saloon against the election of a local option legislature, to the end that the saloons may be restored as a legal institution in the state.—Nashville Tennessean.

HURRICANE IS ON.

Big Autumnal Storm Sweeps Over the Caribbean Sea.

New Orleans, La., Aug. 25.—The season of tropical hurricanes is on, and the first one reported from the Caribbean sea, is said to be headed this way.

All the weather reports from the disturbance indicate that it will hit the Louisiana and Texas coasts early tomorrow; in fact, the first indications hit here last night in a gusty rain. The United Fruit company's wireless station received reports from several ships and from stations in the Caribbean telling of the movements of the storm. The big passenger steamer Heredia, is in the midst of the blow in the Caribbean, but no anxiety is felt over her as she is a staunch ship and ably commanded.

AULD LANG SYNE

(Continued From Page One.)

That, however, is several months off, and probably a sufficiency of timber will be submitted for selection before the primary entries close.

Councilmen.

Councilmen George Hannin, of the First ward; Pat F. Lally, of the Second; A. M. Foreman, of the Third, and R. J. Wilson, of the Sixth, are candidates for renomination. Hannin has opposition in the person of W. N. Warren, the jeweler, and Wilson is opposed for the long term nomination in the Sixth by John C. Farley, Jr. Some one fixed it against Wilson by placing one of the candidates in direct opposition to him and giving the third, Lew Barnes, for the short term, a clear field.

In the Fourth ward L. L. Roof, the grocer, has no opposition; in the Fifth ward Jesse Gilbert, the druggist, and G. R. Broadfoot, of South Third street, are candidates.

The ticket is significant for the elimination of several members of the present general council from the nomination, either by leaving them out of the primary or arranging opposition to them in such a fashion as to insure their defeat for the nomination.

Names selected for most of the places are familiar to the voters of Paducah, and time tried partisans are on guard.

The School Board Ticket.

For the school board E. J. Pettit, of the First ward, and H. B. Saltzger, of the Sixth ward, are renominated. There are no contests. A. M. Rouse, manager of Draughon's business college, is a candidate in the Second, now represented by John R. Ferguson; Dr. R. R. Winston and Frank H. May, the insurance man, are candidates for the long term and short term, respectively, in the Third, now represented by Samuel Hubbard, Mius Stewart, the carpenter, and James T. Leake, president of the Leake Printing company, are candidates for the long and short term, respectively, in the Fourth; Dr. W. H. Parsons and Thomas B. Orr, the insurance man, are candidates for the short and long terms, respectively, in the Fifth ward. The short term in the Sixth ward goes to Ben J. Vize, the druggist.

Officers of Columbus Who Mutined Are Dismissed.

Columbus, Aug. 25.—Friends of 33 policemen who mutined when Mayor Marshall ordered the members of the department to ride as guards on the street cars during the strike, will endeavor, at a special meeting of the council tomorrow evening, to compel the mayor to permit the policemen to return. The mayor declares they shall not be connected with the department while he is mayor.

Attaches of the governor's office today held up the applications made to clothe outside detectives employed by the Columbus Railway and Light company with police powers.

NATIONAL TITLE AT STAKE.

Bundy and Larned Will Play for Championship.

Newport, Aug. 25.—Beals C. Wright, of Boston, met defeat today in the final round of All-comers Tennis tournament at Casino courts, Thomas C. Bundy, of Los Angeles, winning by 3 out of 4 sets. Bundy came into prominence this year by winning the Pacific Doubles with T. W. Hendrick and later defeating the east, south and middle west champions.

Bundy lost only three sets in eight matches played here and tomorrow Champion Wm. A. Larned should have his hands full to beat the young Californian in a match for the national title.

LAND GRABBERS AT WORK.

Sought to Have Government Close Indian School.

Pawhuska, Okla., Aug. 25.—An attempt in which it was alleged land grabbers sought to get possession of one million dollars of the government Indian school at Chilocco, today, was laid before the congressional committee investigating the Indian land contracts. For the government to close the institution and to sell the lands would be to rob the Indians of one of their chief sources of education, an official said. The land grabbers have had agents at Washington in an effort to get the government to sell the property for practically nothing.

FIVE YOUNG SEAMEN

CHARGED WITH MUTINY.

Baltimore, Md., Aug. 25.—Five Massachusetts youths, William D. Albert, Charles Mitchell, H. W. Lillaya, Charles Turner and George White, were lodged in jail today after being brought 3,000 miles to answer a charge of mutiny. They were members of the Pedro Varela, of New Bedford, and were accused of mutilating the windlass and were thrown overboard. The men assert they were treated brutally and given insufficient food by Captain Crovelo.

INFANTRY WON HONORS

At the Camp Perry Rifle Practice Yesterday.

Camp Perry, O., Aug. 25.—The rifle team representing the United States infantry, won the National Match by a score of 3,186. The cavalry was second, the New National Guard winner (Iowa) landed third and navy fourth. The four teams get respectfully the national trophy and \$450, \$350, \$300 and \$250. The 15 leaders who will compose the 1911 class "A" rank as follows: United States infantry, 3,186; United States cavalry, 3,115; Iowa, 3,112; navy, 3,111; Naval academy, 3,107; Massachusetts, 3,105; Wisconsin, 3,101; Colorado, 3,086; Michigan, 3,066; New York, 3,052; Ohio, 3,044; Minnesota, 3,021; District of Columbia, 3,020; Texas, 3,019.

The official bulletin announcing the prize winners of classes "B" and "C" are not issued, but the rank of the teams indicates that Minnesota wins the Hilton and \$350 in class "B"; District of Columbia, second prize, \$250; Texas third, \$225, and Oklahoma fourth, \$200, and in class "C" Kansas takes the bronze soldier of Marathon and \$300; Arizona second, \$200; Utah third, \$175, and North Dakota fourth, \$150.

Old Guard Beat By Cannonism.

Atlanta, Ga., Aug. 25.—"Cannonism" played an important part in Georgia politics during the past several months, and at the Democratic primaries brought about the defeat of Leonidas F. Livingston and William M. Howard, in point of service the oldest members of the Georgia delegation in the national house of representatives.

In the Fifth district William Schley Howard, a young attorney, won a decisive victory over Livingston. In the Eighth district the returns show a convention majority of four votes for S. J. Tribble, and Congressman Howard filed notice of contest of the election. He charges irregularities at two precincts in Elbert county, which gave Tribble a majority of four votes.

The other nine members of Georgia's delegation in congress are assured of renomination.

The fight against Livingston and Howard was, in each case, based upon the representatives' alleged desertion of the Democratic party when it was sought last December to change the so-called "Cannon rules" of the house.

Former Governor Hoke Smith won the nomination for governor over the incumbent, Joseph M. Brown. Smith's popular majority in the state was approximately 4,000. Two years ago Brown defeated Smith for re-election by a popular majority of more than 10,000. Smith's majority in the convention will be about 35 votes.

Causes Panic Among Family.

Pittsburgh, Aug. 25.—St. Any Zeonsky, aged 11 years, who was struck and terribly mangled by a Baltimore & Ohio passenger train and taken home for dead, caused a wild panic in his northside home, when his parents ran from their house shrieking "our boy has come to life!" Young Zeonsky was playing with companions when injured. His crushed body showed no sign of life, according to physicians. The lad's mother and father summoned an undertaker. At an early hour today while the mother and father watched in the room where their son lay apparently dead the lad sighed. Physicians were immediately called, but little hope is expressed for his ultimate recovery.

Seven Pounds Off Soldiers.

Washington, Aug. 25.—Following the action of a board of army officials appointed to improve the outfit of the men in the infantry branch of the army, new equipment is now being manufactured at Rock Island arsenal which will prove a greater comfort to the soldier and after his efficiency on the field. The board's action, approved by Secretary Dickinson, seeks to improve everything the soldier uses except clothing, ammunition and rifle.

Comfort and light weight are the chief aims. New accoutrements will weigh 28 pounds, or seven pounds lighter than the old, the difference quick for him.

SOME OF THOSE WHO GOT SIBLEY'S MONEY.

Warren, Pa., Aug. 25.—The information upon which warrants were issued for former Congressman Jos. C. Sibley and others, charged with conspiracy "to defraud the voters" of Warren county, was returned to the office of Justice Perry last night. The information asserts that the accused used the following sums of money, paid over by Sibley and his secretary, Frank H. Taylor: To Charles Crandall, \$13,000; George B. Munn, \$5,500; D. M. Hoard, \$1,000; D. F. Wheeler, \$2,500; Wm. Meltay, \$250; C. J. Gibson, \$625; R. J. Schumaker, \$625; Albert Erickson, \$810, and John A. Swanson, \$1,000.

Going After the Men "Higher Up."

Chicago, Aug. 25.—The federal grand jury, which has been investigating the so-called beef trust will, it was learned today, look into the charges of fraud in connection with the manufacture and sale of butterine. This was learned when five witnesses, brought secretly from the federal prison at Fort Leavenworth, appeared in the office of the United States marshal. The witnesses are Wm. Broadwell and Samuel Driesbach, convicted butter "moonshiners" and three others recently convicted at Milwaukee of similar offenses.

Two months ago a grand jury made an investigation of the charges, but failed to reach what the government was after namely, the men "higher up."

Kills Negro Tramp.

Jackson, Tenn., Aug. 25.—Geo. Hunt, an Illinois Central flagman, shot and killed Lewis Anthony, a notorious negro crook, who was stealing a ride on his train. Conductor E. W. Coleman, also of this city, was walking over his train, extra north No. 359, with the flagman, when he came upon two negroes stealing a ride. Hunt called to the negroes and asked what they were doing, and Anthony drew out his revolver, but Flagman Hunt was too quick for him.

HOTEL MAN A SUICIDE.

Jacob Kreidler, Seated Beside His Daughter's Grave, Drinks Acid.

New York, Aug. 25.—Jacob Kreidler, for years proprietor of Kreidler's hotel, Tarrytown, was found dead sitting in a chair beside the grave of his daughter in the Sleepy Hollow cemetery yesterday morning. Kreidler had taken carbolic acid.

When last seen Thursday night he was in excellent spirits and did not hint at suicide. He went to the cemetery at 8 o'clock, sat down in the chair in the family plot and drank the acid. The body was discovered by a cemetery employee, and when the coroner arrived he found a second bottle of carbolic acid in Kreidler's clothes.

He was 54 years old and leaves two daughters, one the wife of John Wirth, president of the village of North Tarrytown.

Splendid Weather for Crops.

STAPLE INN FALLING.

Hostelry Where "Rasselas" Was Written Crumbling Away.

London.—Poor old London—by which is really meant the older London—is crumbling away more and more. The old houses of historical interest cannot withstand the climate which slowly, but assiduously, eats its way into London's old vitals like a disease.

London can hardly afford to lose Staple Inn, but it is in grave danger. An ugly crack was discovered recently by painters at work there, and immediately the tottering walls were shored up with stout timber, but that has not proved sufficient, and it may now have to be taken down altogether to prevent a sudden and perhaps dangerous collapse.

According to an inscription over the door of No. 9 Staple Inn was "splendidly rebuilt in 1729," and it was saved from collapse once in 1834. The gabled and timbered frontage in Holborn, which catches the eye of every visitor, is the most picturesque bits of domestic architecture in London, and the quiet courts and beautiful hall could never be replaced. It was in Staple Inn that Dr. Johnson wrote "Rasselas."

One of the least likely buildings in all London to attract attention was the Belgrave chapel, in East Halkin street. Yet, because it is going, it is now attracting the attention of everybody. Although the congregation of the chapel has diminished of late years, there are many who regret the passing of the old chapel.

The building in a street in a most fashionable quarter, which was said to lead to Mortimer House and nowhere else, was not without external attractions, however severe it may have been within. It was one of the few remaining proprietary chapels in London, temporarily licensed for the holding of religious services, according to the doctrines of the Protestant church. An extra touch of pathos in its decay is concerned with the fact that its blind pastor, who for 12 years has spoken to the little congregation from the severe pulpit, and who on Sunday last preached his valedictory sermon, never saw the building he was leaving.

With the Belgrave chapel goes the most important of the remaining proprietary churches in London.

HERMIT KINGDOM TAKEN BY JAPAN

REPRESENTATIVES OF FOREIGN POWERS NOTIFIED.

Natives in Interior May Rebel Against Jap Government—Independent Struggles.

IMMEDIATE CONTROL IS GIVEN.

Tokio, Aug. 25.—The text of the convention under which Korea was annexed to Japan was communicated to the representatives of the powers. The document which now establishes facts, was signed Aug. 24 and will be effective to some of the ministers Aug. 29 or 30, when the independent existence of the Hermit Kingdom, the struggle for whose control started the Russo-Japanese war, will cease.

Baron Hirata, minister of the interior, summoned the proprietors of all the Japanese newspapers to his cabinet today and requested them to publish no unauthorized information regarding the situation in Korea. He pointed out that such publication under existing conditions would only make the task of the Japanese government more difficult. The newspapers agreed to his wishes and nothing regarding the annexation beyond official statements will therefore be published before the publication of the promulgation of the convention.

The Japanese government, which has a large number of representatives already in Korea, will be prepared to take over the machinery of administration in Korea without any delay. Considerable uneasiness is reported at Seoul, owing to the circulation of threats of disorder following the annexation. These emanate from malcontents, who have not received the consideration which they think due them in the provision made by the convention for the future of the Korean royalty, nobles and officials. Sporadic outbreaks in protest against the absorption of Korea by Japan are anticipated, but serious rioting or even widespread objection from the Koreans to the annexation is not expected.

Although the long expected official announcement of the annexation of Korea by Japan has aroused the great interest in diplomatic and business circles, it causes no surprise. The British foreign office for some time has been conducting informal negotiations with Japan with the view of protecting British interests in Korea under the Anglo-Japanese treaty of alliance of 1905, which stipulated that the free hand enjoyed by Japan in Korea shall be subjected to the principle of equal opportunities of commerce and industries of all nations.

MISSISSIPPI PLANTER GETS RID OF MALARIA

(Arkansas City Gazette.)

In some river districts this year malaria was worse than ever before, and old-fashioned "shakes" interfered with prompt handling of cotton. Judge Hemphill was in town today. He says: "If it hadn't been for Capt. Wells' Malaria Remedy I don't know what we would have done. Two-thirds of my workers were knocked out with malaria in some form or other—everything from dumb ague to swamp fever, and quinine didn't seem to have much effect."

"A druggist in Huntington about a month ago asked me why I didn't try Capt. Wells' Malaria Remedy. I took home a supply and in four days had every hand on the place well and at work."

"There sure is nothing like that malaria remedy, and you newspaper men ought to advertise it free. It will break up a chill and knock out a fever quicker than anything else. I've heard the prescription has been in the Wells family for 120 years and not a single failure to relieve or cure has been reported."

"No, it hasn't any fancy name. Just ask for 'Capt. Wells' Malaria Remedy,' and if the druggist hasn't got it he can get it for you. Capt. Wells' son now makes it."

WOMAN LYNCHER

Zanesville, O., Aug. 25.—Mabel McManaway was arrested today and held for Newark authorities in connection with the Ethington lynching of July 28. Standing on the seat she cried to the leaders, "Pull him a little higher so I can see."

GAYNOR'S WOUNDS HEALED.
Mayor is Back on Regular Three Meal Diet.

New York, Aug. 25.—The bullet wound in Mayor Gaynor's neck has healed on the outside and the irritation of the throat caused by granulation on the inside has ceased. The mayor ate heartily and will go back to his regular diet of three meals a day. He was allowed to take a little exercise in the hospital corridors.

No bulletins are now issued and only the hospital physicians are in attendance. There will be a consultation of physicians toward the end of this week to fix a date at which it will be wise to let the mayor leave.

Brass Stolen At Grand Rivers.
Grand Rivers, Ky., Aug. 25.—(Special)—Valuable brass that had been stolen from the iron furnace here and sunk in the Cumberland river as a safe hiding place, was recovered yesterday afternoon by officers, who had been at work on the case several days. Returning to the furnace two men, one of whom was a negro, were found in the act of forcing their way into the furnace but made their escape after officers had sent several shots after them. One shot is believed to have taken effect in the white man's leg as he was limping when last seen. The men are suspected of the robbery and are being hunted for throughout this section.

CURE FOR LAME BACK
Men who suffer from out of order kidneys or rheumatism and can not "trot" the kiddies or otherwise use the muscles of the back without discomfort, should test the new Har-Kola Globes treatment which druggists say is so good for these troubles.

It is recommended for all complaints of the kidneys and bladder and rheumatism, and the remarkable sale it is having, notwithstanding its short time on the market, seems to prove that it possesses unquestioned merit. Druggists say they have never seen a medicine which seemed to give such universal satisfaction. A full guarantee to refund the money, if it fails, is offered by Gilbert's Drug Store.

OSCAR CHITWOOD HELD FOR MURDER

CORONER'S JURY FIXES SHERIFF'S DEATH ON OUTLAW.

Farmers Who Captured Chitwood Sue for It and Also Bring Action Against Two Deputies.

NOW QUARREL OVER REWARD.

Hot Springs, Ark., Aug. 25.—Oscar Chitwood, the Rag Weed Valley mountaineer who took part in the tragic shooting here last week, in which Sheriff Jake Hout and George Chitwood were killed, was this afternoon ordered held without bond to answer a first degree murder charge before the next grand jury for the part he played in the killing of the sheriff.

It was a coroner's jury holding an inquest to investigate the death of Sheriff Jake Hout which returned the order, which was covered in a verdict to the effect that Sheriff Hout had been killed by George and Oscar Chitwood, and that as George Chitwood was now dead, Oscar should be held for the Hout killing.

Oscar Chitwood is in the state penitentiary at Little Rock for safe keeping, after his surrender to farmers three days after being a fugitive from heavily armed posse, which flocked the hills and valleys of the Rag Weed district.

Interesting in the development of the story of the shooting, as told in this preliminary hearing, was that Oscar Chitwood fired the first shot in the fusillade. The Chitwoods had been called into the sheriff's office, had there been served with warrants, had drawn revolvers and covered the officers and were retreating. When they reached their horses, which were near the court house, they stood behind them as the officers came up. Oscar Chitwood fired in the air. That shot was the signal for opening fire between the two brother mountaineers and the brother officers. The officers shot from the open, the Chitwoods shot from behind their horses, on which were heavy Texas saddles. It developed that the Chitwoods would fire first from behind the horn of the saddle then from behind the high back, and alternate with each shot. That explains why Sid Hout, himself a crack shot, hit neither of the men, for his bullets were buried either in the horns or the rear frames of the large saddles.

Sheriff Sid Hout, who had been appointed by Governor Donaghey since his brother's death, received a letter from Amity describing the plot. George Chitwood had in the affray, claiming it was stolen from the writer's residence in Amity sixty days ago, and that it can be positive. There is a dispute over the claims for the reward money Oscar Chitwood surrendered to John Bryant and J. A. Coleman, farmers, who were bringing him to town. Deputies Ben Murray and John Rutherford met the party and brought Chitwood on in. The farmers claimed the reward for themselves. The officers claimed it, under a pledge to give it to the widow of the late sheriff. An interview which the deputies gave to the press in substantiation of their claim, resulted in suits for the \$1,228.50 reward money and \$10,000 for alleged defamation of character being filed by the farmers, Coleman and Bryant, against the officers, Murray and Rutherford.

SHERIFF STOPPED

ARKANSAS OFFICER IS HALTED AT CAIRO, ILL.

Was Taking Back Negro Charged With Murder—Must Return to Chicago.

Cairo, Ill., Aug. 25.—Sheriff C. L. Lewis, of Jericho, Ark., en route from Chicago to Jericho with Stephen Green, a negro charged with the murder of William Sidel, a planter, was stopped here by the serving of a writ of habeas corpus issued in Chicago. Service on Sheriff Lewis was effected by telegraph and was made just as the Arkansas officer was about to leave the state.

Sheriff Lewis will return to Chicago immediately, where the negro Green was arrested several days ago after a search of months.

Fear of Mob Law.
Chicago Ill., Aug. 25.—The writ of habeas corpus which intercepted Sheriff Lewis at Cairo, was issued here late today by Judge Tutthill on the plea of the Rev. A. J. Cary and William Anderson, who have interested themselves in the case of the alleged negro murderer, Green.

"We don't want to see Green go back to Jericho for trial," the Rev. Mr. Cary said, "for fear that he will be mobbed and burned at the stake. We are only interested in the case to the extent of demanding that Green be given a fair trial. If he is proven guilty of the murder he

should suffer." Green, following his arrest, stated that he was attacked by Sidel and shot four times before he procured a rifle and killed the planter. He says he killed him in self-defense. The two men had quarreled regarding a leasehold on farm lands.

Lilly—"I'm gwine to sprize party tonight, Miss Sally."
Miss Sally—"What will you take for a present?"
Lilly—"Well, we didn't call late on takin' no present. Yo' see, we don't want to sprize 'em too much."

VIRGINIA OF THE AIR

By **HERBERT QUICK**

CHAPTER XVIII.

ALONE ON AN ISLAND IN AIR.

THE ballist, a tottering old functionary with a white mustache of Bismarckian fierceness, warily laid a raporial claw on Craighead's sleeve.

"Amateur day in court!" he hissed in the ballist's ear. "The hook! The hook! I go, but my logic sticks! Stone walls do not!"

Mr. Filley here interposed to such effect that Craighead was fined, expelled and set free. Mr. Filley's masterly address was based on the law laid down by Craighead, reference to which finally evoked a smile from the justices.

In a week an injunction was issued as prayed. The airships of the whole nation were tied up; the Universal Nitrates and Air Products company made the Carson-Craighead Aeroplane company its sole licensee; the Carson aeroplane was the only flying machine which could be used; the law of real property was vindicated; Aero-static Power dropped to nominal prices; Craighead was suddenly recognized as the most overshadowing genius legal strategy had ever known; Carson stood high in finance and diplomacy; the factories for manufacturing flying machines were offered to him at his own terms, payable in Carson-Craighead stocks; thousands of men were put to work on the Carson aeroplanes; the Waddy family began to occupy space in newspapers and magazines; the world of finance whirled about and readjusted itself to the explosion—all of which took time.

And in the midst of the first excitement the following item appeared in a newspaper:

A bizarre result of the McFadden decision is the marooning of Mr. Finley Shayne, erstwhile prince of the powers of the air, at Shayne's Hold, where the Roc was enjoined. There is no egress from the hold save by airship. The Carson crowd has the air rights surrounding the mountain, and Mr. Shayne and his family have no means of getting away except by violating the injunctions.

No craft save the Carson aeroplane, the Virginia, can go to them or anywhere and Mr. Shayne will starve rather than allow her to land. This sounds like a joke, but Mr. Shayne takes it seriously. The castaways are Mr. and Mrs. Shayne, Miss Suarez and Mr. Max Silberberg.

Carson approached Craighead with this paper, his finger pointing to the item. Craighead read it with glee.

"When Shayne has eaten the last poisoned rat," said he, "and worn his knees raw snarling rattlesnakes off the cliff for food I'll go to him and say:

"I'm done with you!" spluttered Silberberg. "Get me away from here if you're a gentleman!"

"If I wasn't I'd have you kicked off!" said Shayne. "You can't jump on me, if you are my guest! I'll—"

"She's refused me in a way I can't stand," protested Silberberg, with hands upturned. "She said I was disgusting! I can't stay!"

"Well," answered Shayne, "the Roc sails at once."

The other members of the imprisoned party were at the garage before Silberberg. Mrs. Shayne in the cabin, Virginia and Shayne in animated debate on the platform.

"Well," Shayne was saying to her, "stay, then, like a simpleton! But how are you to get away? I don't know how long the courts will keep this up, and our running the injunction won't make it any shorter!"

"It's blowing awfully," said Silberberg. "Nobody noticed him but the pilot. 'I know it, sir,' said he. 'It's fool-hardy to take this gas bag out.'"

"Shayne," said Silberberg, "the pilot says it's not fit to go out."

"Then stay," answered Shayne. "You're welcome to the house."

"But, Shayne," cried Silberberg. "It may mean getting whirled out to sea or—"

"Out to sea?" sneered Shayne. "And the wind southeast. Stay if you're afraid. Virginia, Mr. Silberberg's going to stay with you."

Virginia walked aboard with a look of disdain, the bitterest cut of all. The winches drew back the leaves of the great roof to let out the Roc, and the surge of the outer air filled the garage with windy tumults. Silberberg suddenly resolved to go and leaped to the gangplank. The drawbridge roof dropped down; the Roc, huge, steely and majestic, went out of her vast nest.

Shayne suddenly gave orders to lay a course dead for Temagami in spite of the northwesterly wind back of the clouds. By waiting for the turn of the wind they might have made New York, but every mile of nothing took them farther from the central "low" and into a larger circle of the huge wheel of the sky. The pilot knew that

"We are alone," said Silberberg, "on an island in the air. Are you sorry?"

Virginia was thinking of the victory of Carson. He had been great in working out his creation, and now he had made war on her Uncle Finley, the tiger of the Stock Exchange, in his very den—and won! But yet this last victory was not like the first. This was the old story of finding how to exploit the world by monopoly; that was doing, creating. Yet Theodore had mortally offended her in that matter of being her uncle. All was over between them. Yet she finally answered Silberberg inconsistently.

"No," said she, "I am not very sorry. But I shall need my hand now to hold my dress out of the dew."

"Tell me once more that you are not sorry, please," said he.

"I am not," she reassured him. "In fact, I—I am rather glad, Mr. Silberberg."

"Max!" said he, unctuously. "Let it be Max, your fellow prisoner!"

"Well, Max, then!"

Virginia now systematically hid from Silberberg, dinners and forced interviews bringing no advancement to their courtship.

One blowy day it culminated. Virginia from a summer house opening toward New York braved the moist and sweet sky with her fieldglasses for—well, for something. Silberberg followed her, swearing inwardly at the perversity of the girl, and as he found her things began to happen. Far over to the southeast and driving fast before the gale came the only flying machine in America free of the McFadden interdiction. Unfortunately Silberberg!

At the same hour Mrs. Shayne burst into Shayne's den, her breath short, her face flushed, her attire and coiffure disarranged. Shayne knew the symptoms.

A Romance Of Flying Lanes

Copyright, 1909, by the Bobbs-Merrill Company

Waverly, N. Y., Aug. 25.—J.

Alden Loring, of Owego, N. Y., one of the field naturalists that accompanied the Roosevelt African Expedition, delivered his first lecture, "Through Africa with Roosevelt," here last night, as one of the attractions of the Old Home Week celebration.

Mr. Loring covered the entire trip from Mombasa, British East Africa to Gondokoro, on the Nile, where the big game hunting practically ceased. After describing the habits of the natives and game, and relating many interesting experiences that befell various members of the party, the speaker said:

"Colonel Roosevelt and Kermit are two of the finest men to be with in camp that I have met. Their whole interest was for the good of the expedition and they added many rare animals to the collection simply because they were determined to make it as complete and valuable as possible. Although handicapped by poor eyesight, the Colonel is a good marksman. Like all sportsmen, he made many good shots and he made many poor ones, but as a whole his shooting was above the average and he frequently brought down many flying birds, such as herons, cranes and grater bustards. In hunting danger-game, such as buffaloes, elephants, rhinoceroses and lions, he exhibited the courage of a veteran big game hunter, and the quickness with which he mastered the situation when in dangerous places, and the accuracy of his shooting showed that he never got excited."

"I do not think that the Colonel gives his readers a fair impression of the very great danger that he and Kermit were so often placed in. After we had said good-bye to four or five settlers with whom we had become acquainted, and met them again several weeks later to find one with a badly injured arm chewed by a leopard, a second in the hospital at the point of death from a lion mauling, and a third who exhibited a rent in a shirt made by the tusks of a charging elephant that killed his gun bearer; and after we had dined with a missionary one noon and learned of his death from fever the next day, we began to realize that hunting in Africa for big game was not altogether a one-sided affair."

Mr. Loring spoke of Kermit as being one of the most persistent sportsmen he has ever met; cool in the presence of danger and so enduring that when he pursued a wounded animal, he seldom failed to get it and in the chase he outran his gun bearers and even the swiftest porters.

In substance Mr. Loring denied that the expedition was one of slaughter. He said that it was purely scientific; sent out by the Smithsonian Institution for the purpose of enriching our knowledge of science and to collect specimens of African animals. Ten times the amount of game could have been killed. Already, over 25 animals new to science have been described, and when the entire collection has been worked up, many more will have been found. Not infrequently the government is compelled to close to travelers, sections of the country where man-eating lions have appeared and are killing the natives or where the rogue rhinoceros or buffaloes toss them with their horns. These animals have to be killed before the region is again safe for travelers. Game is so abundant that barbed wire fences are broken down by zebras, wild beasts and hartebeests and crops seriously damaged. The settlers encourage hunters and if they had their own way, in a short time the vast herds of game that now roam over the plains would be greatly decreased.

A large number of colored lantern slides made from photographs made by Colonel Roosevelt and Kermit Roosevelt were shown. They depicted herds of wild elephants, rhinoceroses, giraffes and other African animals.

Friend—"So your great Russian actor was a total failure?"

"If we reach an aerial harbor," said Shayne through the speaking tube, "what do you think of trying a landing?"

"We'd rip to strings," said the pilot. "We'd be killed."

To the pursuing Carson the Roc seemed doomed to the aerostat slipwreck—a shattering fall in landing or watery extinction in the open sea. And Virginia! Agonizing for her, Carson followed, watching like a wrecked man a full rigged ship drives on a reef.

And yet, even after her turn, all seemed well with the Roc. The sea lay south and east. Nothing was impossible; but, edging into the gale with all the power of her screws, she worked stanchly off into the west. Yet Carson knew it was a losing fight, and Shayne walked the deck in agony as she gave ground at last before the wind, which howled in across the Pennsylvania mountains and beat the great hunted creature to the Delaware at Philadelphia.

Virginia came on deck. "Where are we, uncle?" said she.

"Oh, we're all right!"

Time enough for the trouble when the crisis came, for shipwreck in aerial voyaging has no tossing before the cyclone ere the final plunge, no wrestle with the waves, no tiring at the pumps, no roaring of white surf scabbing the teeth of the reef. All is steady and comfortable until under neath yawns destruction. Though every moment inevitably marked a loss of gas in the balloon once out at sea they must keep up to win the far African coast or to bear around the whirl to Nova Scotia or Labrador, and in that quadrant was rain. Before that could be done the huge gas holder would grow wrinkled, flabby, weak; the car would drag her down, the stronger ones would cut everything away to lighten the ship, the weaker would drop into the brine with no hope save in the prayer time accorded by the life preservers, and finally the last man clinging to the fragments of the nacelle would see the huge mass of flapping silk and gum and tin foil drop into the waves, himself utterly lost in the utter desolation of hopeless solitude—food for the fishes.

Dinner was served, Shayne trying to smile and discussing with these dear women the time of reaching Temagami.

Virginia, again on deck, stood gazing ahead, not knowing that their actual flight was astern. She thought she was looking toward her destination. She had lost sight of the Virginia, and she was not sorry or displeased to have Carson give chase unsuccessfully. She was very angry with him.
